Parcial 2 Ingles Tecnico II

1• Would you like to tell us about yourself?

My name is Gabriel Ricardes, I am 21 years old. I was born and live in Buenos Aires, Argentina.

I am currently studying mobile application development technology at UNLAM university and I am carrying out both web and mobile projects to upload them to my personal portfolio.

2• What would you say are tree of your most remarkable aspects?

If I have to say 3 positive aspects of myself, I would say that I am creative, persistent and reliable.

3• what do you think is an aspect of yourself that has room for improvement?

I am a little shy. however, I am learning how to interact with my classmates to improve my communication skills.

4• What do you do like in your free time?

I like to go to the gym to stay in shape, listen to music and play video games. I also like to learn and be aware of the latest technologies that are needed in the market.

5• Why are you interested in working in our company?

I would like to be part of this company because it is well known in the market where I am interested in growing as a professional.

6• Why do you think we should hire you for this position?

because I can contribute significantly to the progress of the company. My skills fit the target of the position and I would perform satisfactorily on it.

7• Are you familiar with our company's present and its plans for the future?

I know ROKO Labs is a rapidly growing technology and product consultancy based in New York. The company has a long history of working with large companies backed by venture capital.

I have read that they are currently working on a large scale and have an extended team spanning several countries.

8• What are your reasons for leaving your current job and joining us?

I currently work at UZER and have worked for them for the last 2 years, where I received great training. However, I feel that it is the perfect time to make the leap from the excellent skills and experience I gained there to hit a globalized job market.

9• Where do you see yourself in five years' time?

In 5 years I would like to become the best ux/ui designer your company has, and why not? working from the New York headquarters, not only in the design area but also having a higher level executive role.
